¹ Entry 3677 (2 October 1396) in the PCA 1395/6 should actually be part of the 1396/7 account.

² This entry is crossed through and then repeated in the following entry but with slightly more detail. The *de Lostwithiel* attached to John Thomas is not included in the second entry.

³ It is possible that all the imports belonged to Liteljohn. This entry is difficult to read even with an ultraviolet light.

⁴ Possibly *Reg'*, for Reginald.
